

Detailed Business Proposal — InsightPilot AI

Autonomous Decision Intelligence for Global Commercial Operations | Accenture Innovation Challenge 2026

1. Executive Summary & Market Opportunity

Modern global enterprises suffer from the 'Investigation Latency Paradox': while dashboards flag revenue and supply chain anomalies within seconds, diagnosing root causes and formulating verified operational responses takes **14 to 28 business days**. This delay results in irreversible market share attrition, distributor order cancellations, and unrecovered revenue.

InsightPilot AI reduces decision latency from 3 weeks to under 30 seconds. By unifying deterministic analytics with LangGraph multi-agent intelligence, it pinpoints root causes, verifies proof via SHA-256 cryptographic lineage, and simulates high-ROI operational interventions with calibrated confidence scores.

2. Financial Telemetry & Empirical Investigation Findings

Metric	Baseline (Q2 2026)	Actual (Q3 2026)	Empirical Gap	Status
East Region Net Revenue	\$15,430,000.06	\$14,200,000.05	-\$1,230,000.01 (-7.97%)	Critical Deficit
SKU-8821 Stockout Duration	0.0 Days (Normal)	14.0 Days (Atlanta DC)	+14.0 Days Unfulfilled	Primary Bottleneck
Distributor PO Deferrals	0 Held Orders	29 Held Orders (\$240K)	29 Postponed POs	Channel Friction
Customer Escalations	34 Baseline Tickets	142 Backlog Tickets	+310% Surge in SLA Breaches	Customer Impact

3. Deterministic Root-Cause Attribution Waterfall

Rank	Driver Name	Attribution %	Financial Impact	Confidence	Controllability
#1	Atlanta DC Inventory Stockout (SKU-8821)	43.2%	-\$550,000.00	94.0% High	Directly Controllable
#2	SKU-8821 Sales Velocity Contraction	26.7%	-\$340,000.00	88.5% High	Directly Controllable
#3	Distributor Purchase Order Deferrals	18.8%	-\$240,000.00	89.0% High	Semi-Controllable
#4	Competitor Horizon Price Cut (-15%)	11.3%	-\$144,000.00	86.0% High	Market Factor
Total	100.0% Variance Explained	100.0%	-\$1,230,000.00	92.4% Avg	Exhaustive Reconciliation

4. Prescriptive Action Roadmap & Modeled ROI

Priority	Recommended Action	Recovery Value	Feasibility	SLA / Timeline
Priority 1	Emergency Stock Transfer (Chicago Central -> Atlanta DC)	+\$484,000.00	High (4,800 units avail)	14 Days (Immediate)
Priority 2	Distributor PO Discount Incentive (-4% early release)	+\$180,000.00	High (29 POs target)	7 Days (Commercial)
Priority 3	Targeted East Retail Co-Op Counter-Promotion	+\$93,600.00	Medium (Marketing)	30 Days (Quarterly)
Total	Modeled Financial Recovery Pool	+\$757,600.00	High Feasibility	61.6% Deficit Recouped

5. Commercialization, Enterprise Pricing & ROI Moat

Enterprise Pricing Model: InsightPilot AI is offered as an Annual SaaS License (\$180,000/year/business unit) plus enterprise data connector onboarding (\$45,000 one-time). For a Fortune 500 consumer goods enterprise with \$250M regional revenue, preventing a single 14-day stockout yields **+\$484,000 in immediate recovered revenue**, delivering a **2.7x first-year ROI in under 90 days**.

Competitive Moat: Unlike generic LLM chat wrappers that hallucinate calculations, InsightPilot AI features Strict Mathematical Determinism, Cryptographic SHA-256 Proof, and a Calibrated Abstention Guard, making it fully compliant with Enterprise Audit, SOX, and Corporate Governance standards.
